1. Introduction and Context of this Plan

The primary focus of this Plan is the management of companion animals, namely dogs and cats. Towong Shire Council acknowledges the role it plays in promoting responsible pet ownership and enforcing legislation. We are committed to balancing the needs of pet owners with those in our community who do not own pets.

Consideration has been given to both parties in the development of our Domestic Animal Management Plan 2017-2021

-

This Plan has been developed in accordance with Section 68A of the Domestic Animals Act 1994 and sets out a formalised approach to increase the awareness of domestic animal management practices within Towong Shire.

Towong Shire Council recognises the value domestic pets contribute in making Towong Shire a vibrant and live able Shire. Domestic pets are not only considered part of a family, but are an integral part of a wider community. Research demonstrates that pets contribute to building a strong sense of community and developing active social capital; vital to any vibrant, healthy community.

Pet ownership is positively associated with social interactions, community involvement and increased feelings of neighbourhood friendliness and sense of community.

With about 63 percent of Australians owning a dog or cat, these benefits, when aggregated across the whole community, are of significant interest to Council and others concerned with building healthier, happier neighbourhoods.

In addition, these benefits create a ripple effect that extends beyond pet owners into the broader community, with pets helping to smooth the way for social interaction and general 'out and aboutness'.

Both anecdote and research suggests that pets are well recognised ice-breakers. Dogs, for example, can stimulate conversation and contact between strangers and trigger positive social interaction.

Studies undertaken by the School of Population Health at the University of Western Australia showed that half of all dog owners surveyed indicated that they had come to know locals in their suburb as a result of their dog.

Residents' chatting to each other as a result of a pet is not just a social nicety. Such community-based interactions between people have the very real potential to break down the barriers and stereotypes that separate us from 'others' while playing an important role in building trust and a deep sense of community at the neighbourhood level.

Pets provide increased opportunities for families to be more active; companionship to those who may be feeling isolated or lonely and assist people with a disability or illness to maintain independence and participate more fully in community life.

2. Background

Local Government has long been the level of government primarily responsible for domestic animal management.

Section 68A of the Domestic Animal Act 1994 (the Act) requires all Victorian councils to prepare a Domestic Animal Management Plan (the Plan) at four yearly intervals. A copy of the plan and any subsequent amendments must be provided to the Secretary of the Department of Primary Industries. Council is required to then report on the plans implementation in its annual report.

2.1 Primary objective

The primary objective of the Plan is to provide a strategic map to support the community towards the goal of responsible pet ownership and to assist Council in achieving a professional, consistent and proactive approach to domestic animal management practices.

The Plan identifies current activities and future actions to address the following areas, as required by Section 68A of the Act:-

- Identify methods for evaluating animal control services;
- Promote responsible pet ownership;
- Ensure compliance with the Domestic Animals Act 1994 and Regulations;
- Minimise the risk of dog attacks;
- Address over population and euthanasia rates for dogs and cats;
- Encourage registration and identification of dogs and cats;
- Minimise the potential for nuisance;
- Identify dangerous, menacing and restricted breed dogs;
- Review all existing Council orders and local laws that relate to dogs and cats;
- Identify programs for training of authorised animal management officers;
- Provide for the periodic evaluation of programs and service strategies.

4. About Towong Shire

Towong Shire is located in far north-east Victoria and is bounded by the Murray River to the North and East, the East Gippsland and Alpine Shires to the South and Indigo Shire and the City of Wodonga to the West. It occupies an area of 6673 square kilometers. The Shire is located on the north-eastern border of Victoria and New South Wales.

Towns and communities

Bellbridge, Berrigama, Bethanga, Burrowye, Bullioh, Corryong, Cudgewa, Dartmouth, Eskdale, Granya, Koetong, Lucyvale, Mitta Mitta, Nariel, Old Tallangatta, Talgarno, Tallangatta, Tallangatta Valley, Tintalra, Towong

Total Area: 667300 ha (6673 square kilometers)
 Total Population 5,762 (2015)
 Total Households 2,511
 Population Density .9 per square kilometer

Over time, agriculture in the Towong Shire has become increasingly dependent on beef cattle farming, and this has been chiefly at the expense of dairy cattle farming. In 2015, Towong contained a total of 497 farming enterprises and the total combined area of these farms was 173360 hectares representing around 25% of the total land area of the Shire. The number of farms in the Towong Shire has decreased since the late 1990's, despite this, the estimated value of agricultural operations has increased steadily by about 50% over the same period.

The Shire's agricultural production is divided between relatively few large scale farming operations and a large number of small to medium scale grazing enterprises. Trends in the Shire suggest an

increase in the proportion of medium-sized operations, whilst the number of economically large enterprises has remained relatively static over the past two decades. Although there has been a trend toward increasing economic scale, both beef and dairy farms in the Towong Shire tend to operate at a smaller economic scale compared to those same types of farming enterprises within the region. The challenge for these producers is the lack of productivity gains which will impact on their ability to maintain real incomes. Although it remains the single largest employment category, employment in agriculture in Towong is decreasing in absolute numbers. This decline is consistent with State and National trends.

Towong Shire, situated in far north-eastern Victoria, possesses some of Australia's most pristine environment. Unique wilderness areas, lakes, rivers and streams create diverse landscapes that are enjoyed by around 6,000 residents and many more visitors across an area of 6,600 square kilometers.

5. Current Programs and Service Levels

If the matter is considered urgent or is endangering anyone or anything, an authorised officer may request the person responsible to cease the nuisance immediately and if they refuse or fail to comply, commence enforcement proceedings on the person responsible for the behaviour.

In circumstances where a permit has been issued, a show cause notice is to be sent to the owner of occupier of the land detailing the permit breaches and request why the permit should not be rescinded. 5.3 Animal Management Staffing and Operational Structure

Local Laws form part of the Technical Services Department which is responsible for the delivery of regulatory services of the Towong Shire Council. Within Technical Services Local Law enforcement employs 0.5 full time staff.

A training register detailing all qualifications and training courses completed by each Local Laws Officer is maintained and updated annually to reflect any training undertaken or required.

5.5 Registration and Identification

Towong Shire Council mails out registration renewal notices prior to 10 April each year.

Any renewal payments not received by the due date of 10 April are followed up with a reminder notice advising of penalties for failing to register a dog or cat.

Registration renewal forms are also used as an opportunity to advertise legislative changes i.e. requirement to register dog/cat by age three months and compulsory micro chipping of all new dogs and cats being registered.

When mailing these notices we often include pamphlets and inserts to further inform and educate our community on domestic animal matters.

5.6 Animal Nuisance Complaints

All animal complaints received are investigated in a timely manner to minimise the potential for complaints escalating. Officers make every effort to resolve complaints to the satisfaction of both parties.

For the most part, nuisance complaints received by Towong Shire Council relate to either barking dogs or stray cats. It is recognised that barking dog complaints can at times cause great frustration for both parties. The Local Laws Officer works hard to balance the interests and rights of both the dog owner and the complainant.

Dog owners can become desensitised to the sound of their own dog barking and may be unaware it is a nuisance to neighbours. An effective resolution is often achieved by alerting the dog owner to the fact their dogs barking is becoming a nuisance. Neighbours who are unable, or find it difficult, to

Speak to their neighbours regarding this matter should make contact with Towong Shire Council for assistance.

The Council Officer will first work with the dog owner to support them in identifying the cause of the barking and discuss possible solutions. The majority of cases involve dogs that are bored or responding to visual stimulation. Both causes are often easily resolved with training, toys, blocking a view or exercising the dog more frequently.

Complainants may be asked to keep noise logs (records of dates, times and duration of barking) should the matter continue and further intervention be required. Noise logs form part of the Barking Dog Complaint Form and are available from the Towong Shire Customer Service Centre's, and Local Laws Officers can assist with explaining how these are to be filled out.

In response to nuisance complaints received on stray cats Towong Shire offers residents' cat cages to assist in safely containing offending animals trespassing on their property or wandering during the curfew period.
