It's time to enrol for the 2018 Kindergarten program

All children in Victoria are eligible to access a funded kindergarten program in their year before they start primary school. To enrol in a funded kindergarten program, your child must be at least four years old by 30 April in the year they will attend the program.

Towong Shire Council's Mayor Cr. David Wortmann said kindergarten services across the Shire offer children the opportunity to have the best start to schooling life.

"It is important for parents to consider when it is best for their child to start school as this will help them determine the best time for them to commence kindergarten.

"Kindergarten services are able to provide families with relevant information about when is the best time for children to start kindergarten. Other early childhood professionals, such as your maternal and child health nurse, can also provide advice to help you make an informed decision about the best age for your child to start kindergarten and school.

To find out more about the 2018 enrolment process please contact your local service:
