Digital Photography Course

Photographers who are keen to gain a better understanding of their cameras and capture that perfect image are being urged to enrol in a new course being offered at the Tallangatta Library and Community Centre.

The three-week Introduction to Digital Photography course will cover tips on how to compose a good photograph, location shooting, adjusting the settings on your camera and downloading images.

"Photography is such a dynamic art form and we have so many places, events and experiences around our beautiful region to capture," Towong Shire Council Mayor Cr David Wortmann said.

"There are so many of us who enjoy taking photos, but often we don't understand the capabilities of our cameras.

"This course will allow participants to become more comfortable with their cameras and combine all the principles needed for taking a good photograph."

Local photographer Carmela Parkin will present each session.
