# **New home for recycled furniture**

---

Old shelving from the former Tallangatta Kindergarten has been given a new lease on life, finding a new home at Tallangatta Secondary College.

The recycled shelves were installed during the summer break and are being used in classrooms, the music room and even the school's stadium as an essential storage and organisational solution.

"When the kindergarten closed we were keen to recycle the items that were not required in our new centre," said Towong Shire Council Mayor Cr David Wortmann. "It's fantastic that the shelving has found a new home and purpose at the secondary school."

"A big focus for this Council is reducing waste and being smarter with how we manage resources. Little initiatives like this add up to big results over time, while being a great benefit to our community along the way."

Other items from the kindergarten including furniture and toys have been donated to local Op Shops and are available for purchase.
