Tintaldra Boat Ramp  
Concept Plans

Towong Shire Council is seeking feedback from the Tintaldra and surrounding community on concept plans for the construction of a boat ramp at the Murray River Reserve, Tintaldra. The purpose-built boat ramp, will overcome many of the safety risks associated with the current ‘launch site’, complement the Great River Road Project, and assist drive tourism.

Submissions and feedback can be lodged to Council via mail or email:

Towong Shire Council  info@towong.vic.gov.au
32 Towong Street
Tallangatta, Vic  3700

Closing date for submissions: 22 September 2018

Construction of a 5m wide concrete boat ramp approximately 40m downstream of the Tintaldra Bridge.

The ramp, spanning a length of 25m, will have a fall ratio of 1V: 5.2H.

A one-way turning-head constructed of road-base and granitic sand will be constructed to direct traffic appropriately through the Reserve to the boat ramp. The circuit will also promote safe access for community members to the existing standpipe.

The development of a trailer and vehicle parking space will take place well above the riverbank, facing Back Tintaldra Road.

The parking space will be constructed of compacted road-base with a granitic sand topping. Surrounding the parking space, garden beds with appropriate hardy, native plants, rock bollards & chain, along with applicable signage will highlight the overall facility.

The area will be strategically landscaped to prevent vehicles from parking/driving within other areas of the reserve and impeding on the enjoyment of other users. Picnic tables will be installed to add to the offer. In addition, regulatory and wayfinding signage will be installed to ensure the conditions of use for the boat ramp facility are understood.

Expected construction period: Jan - April 2019.
