

Positive Parenting Program (Triple P) – Supporting Tallangatta Kindergarten

– Parenting is one of the most challenging and rewarding jobs we will ever do. Children are all so different and they don't come with instructions!

The Positive Parenting Program is for parents / carers of 2-10 year olds. This program aims to promote positive, caring relationships between parents and children and help develop effective ways of dealing with a variety of childhood behavioural problems.

Positive Parenting is an approach where parents will learn how to encourage desirable behaviours, manage misbehaviour and teaching your child new skills.
