1 INTRODUCTION

1.1 Background

Bellbridge is built on the shore of Lake Hume, Victoria. As part of the Bellbridge Masterplan and Strategy “Our Bellbridge”, Towong Shire Council has worked with the local community to identify a number of key developments to support the community’s growth and help the town thrive. Towong Shire Council has secured funding to implement the six key developments given greatest priority by the community.

The six key developments identified in the strategy are:

- Roy Williams Reserve
- Tennis court upgrade
- Foreshore park
- Road treatment
- Furniture items
- Signage.

These developments will assist in meeting the main aim of ‘Our Bellbridge’ which is to ensure that the township enjoys sustainable growth, bringing together the needs of visitors and the community.

This request for quote brief relates to the upgrade of access roads, car park bays, walking paths and associated drainage along the Bellbridge foreshore.

1.2 Scope of Works

The project scope of works associated with the upgrade of access roads, car park bays, walking paths and associated drainage along the Bellbridge foreshore is outlined in the Bellbridge Foreshore Infrastructure Works design plans and involves but is not limited to the following key elements:

1. Re-shape and top dress access roads at the southern peninsula of Bellbridge foreshore adjacent to the Bellbridge township and around the Hume Boat Club.
2. Construct pedestrian and shared use paths along the Bellbridge foreshore.
3. Install culverts and drains to improve drainage associated with access roads and walking paths.
4. Construct car park bays adjacent to access roads and other public facilities.

1.2.1 Specific Information and Allowances

1.2.1.1 Design Drawings

- Design drawings detailing Plan, Long Sections and Typical Sections for the upgrade of all access roads, car park areas, walking paths and associated drainage are provided in Appendix A (Bellbridge Foreshore Infrastructure Works) and Appendix B (Rain Garden Design).
1.2.1.2 Time Frame for Delivery of Works
- Works associated with the upgrade of all access roads, car park areas, walking paths and associated drainage are to be delivered from 16 March 2015 to 10 April 2015.

1.2.1.3 Upgrade of access roads
- Re-shape the access roads at the southern peninsula of Bellbridge foreshore adjacent to the Bellbridge township and around the Hume Boat Club located on the Bellbridge foreshore as detailed in Appendix A (Bellbridge Foreshore Infrastructure Works)
- Road width required is 4 m (plus formation and earth works)
- Total road length required is 383 m (southern peninsula section = 194 m and boat club section = 189 m)
- Top dress all access roads using 30 mm aggregate granitic sand compacted to 95% MDD
- Access roads are to be top dressed to a thickness of 100 mm as detailed in Appendix A (Bellbridge Foreshore Infrastructure Works).

1.2.1.2 Construction of pedestrian path (1.5 m wide)
- Shape the pedestrian path to the layout and grade detailed in Appendix A (Bellbridge Foreshore Infrastructure Works)
- Top dress the pedestrian path using 30 mm crushed granitic sand compacted to 95% MDD and to a thickness of 75 mm
- Path width required is 1.5 m
- Path length required is 145 m

1.2.1.3 Construction of shared use path (2.5 m wide)
- Shape the shared use path to the layout and grade detailed in Appendix A (Bellbridge Foreshore Infrastructure Works)
- Top dress the shared use path using 30 mm crushed granitic sand compacted to 95% MDD and to a thickness of 50 mm
- Path width required is 2.5 m
- Path length required is 582 m
- Repair steps leading from Lake Road to the shared walking path adjacent to the Gravel Trailer Parking Area as shown in Appendix A (Bellbridge Foreshore Infrastructure Works – Drawing No. 1029 L-3).

1.2.1.4 Installation of culverts and drains
- Install culverts and shape drains associated with access roads and walking paths as indicated in Appendix A (Bellbridge Foreshore Infrastructure Works)
- Culvert size and type required is 300 mm diameter concrete pipe (6 m) and 300 mm diameter StormPro pipe (174 m)
- Head walls for culvert ends are required to be hand placed and rock mortared in place. The total number of head walls required is nine (9)
- Install Grated Pits, Junction Pits and Surface Inlet Pits as indicated in Appendix A (Bellbridge Foreshore Infrastructure Works).
1.2.1.5 Construction of Rain Garden
- Construct a rain garden at the location as indicated in Appendix A (Bellbridge Foreshore Infrastructure Works)
- Construction detail and dimensions of the rain garden as provided in Appendix B (Rain Garden Design)

1.2.1.6 Construction of car park bays
- Construct car park bays in six (6) locations along the Bellbridge foreshore precinct as indicated in Appendix A (Bellbridge Foreshore Infrastructure Works). These locations include:
  1. Adjacent to the Foreshore Park and Bus Stop on Lake Road (Parallel parking)
  2. Adjacent to the access road on the southern peninsula (Parallel parking)
  3. On Lake Road adjacent to the shared use path on the southern peninsula (Angle parking)
  4. Adjacent to tables and seating on the southern peninsula (Angle parking)
  5. Adjacent to Lake Road near the public toilets (Parallel parking)
  6. Outside of the entrance to the Hume Boat Club (Angle parking).

(Please note that this brief does not include upgrades to parking bays at the Hume Boat Club house)
- Top dress all car park bays using 30 mm aggregate granitic sand compacted to 95% MDD
- Car park bays constructed adjacent to bitumen roads or concrete kerbs are to be top dressed to a thickness of 150 mm.
- Car park bays constructed adjacent to compacted granitic sand access roads are to be top dressed to a thickness of 100 mm.
- Total area of hard stand required for car park bays is 630 m².

1.2.1.7 Traffic management
- Preparation and implementation of a Traffic Management Plan is required.

1.2.1.8 Disposal of fill
- Clean spoil from earth works to be stockpiled on site and used to create earth mounds that form part of the landscaping at the site as shown in Appendix A (Bellbridge Foreshore Infrastructure Works).

1.2.1.9 Construction of Earth Mounds
- Earth mounds to be formed in locations as indicated in Appendix A (Bellbridge Foreshore Infrastructure Works)
- Top soil is required to form earth mounds to a depth of 550 mm
- Total volume of top soil required for the formation of earth mounds is 500 m³
- Eucalypt mulch is required to be placed over the top soil to a depth of 100 mm
- Total volume of mulch required is 90 m³.

1.2.1.10 Work by Others
- The boardwalk / bridge connecting the shared use path along the foreshore will be constructed separate to this brief
- The concrete pavement in the foreshore park area will be constructed separate to this brief.
- The removal of trees as indicated in the design plans will be completed by a separate service provider prior to works associated with this tender commencing.

## 2 Tender Information

### 2.1 Tender Submission

#### 2.1.1 Non-conforming Tenders

Should a Tender be considered non-conforming, Towong Shire Council may, at its sole discretion, determine if that Tender should be considered as part of the Tender Evaluation process. Non-conforming Tenders may include those which do not meet the requirements set out in the Tender Documents, Submission Requirements or other aspects of the Conditions of Tender.

#### 2.1.2 Tender Program

As part of the Tender Submission the Tenderer shall provide Towong Shire Council with a detailed construction program outlining the main elements of the project delivery.

The Tender Program should identify at least the following:

- Project critical path.
- Key milestone dates which may impact on the overall completion date.

#### 2.1.3 Tender Validity Period

The Tender Submission is deemed valid for 60 calendar days after the Tender Closing Date.

#### 2.1.4 Evaluation of Tenders

Towong Shire Council will evaluate all Tenders based on Schedules and supporting information provided as part of the Tender submission.

The Tenderer should be prepared to discuss, in detail, all aspects of the Tender submission as part of this evaluation process. The Tenderer further acknowledges that the Tender which offers best value to Towong Shire Council may differ from the Tenderers assessment of best value.

#### 2.1.5 Costs to Tenderers

The Tenderer acknowledges that all costs associated with the review, preparation and submission of the Tender are to be borne by the Tenderer.

#### 2.1.6 Completed Documents to be Lodged with Tender:

- Tender Form and associated schedules
- OH&S Checklist or Management Plan
- Addenda Form (if applicable)
- Schedule of Rates
- Program / Schedule in Gantt Chart form
- Evidence of relevant certifications, licences and insurances.
The Tenderer should also include documents that address the key selection criteria to assist in the Tender Evaluation.

2.1.7 Selection Criteria
The following factors shall form the basis for the comparative evaluation Tenders:

- Demonstrated experience and track record in delivering similar projects
- Demonstrated capacity to deliver within the set timeframe
- OHSE systems and past performance
- Commensurate Tender Price

2.1.8 Tenderer to Become Informed
Prior to submitting a Tender, the Tenderer must ensure that they have;

- Reviewed and understood all Tender Documents and Tender Information
- Considered all risk associated with the works as described.

2.1.9 Site Conditions
It is the Tenderer's responsibility to thoroughly inspect the existing site conditions and surrounding area prior to submitting their Tender.

2.2 Form of Contract
The contract will be a Lump Sum Contract, not subject to rise and fall and exclusive of GST (Goods and Services Tax). The form of contract shall be General Conditions of Contract AS2124 – 1992.

A copy of the Contract is not included in the tender documents, tenderers should make their own arrangements to obtain and review a copy of the Contract.

Part A of the General Conditions of Contract have been included as part of the tender Conditions.

2.3 Closing Date
Submissions will be accepted up until 5:00 pm Friday 20 February 2015. Submissions should be submitted electronically to Peter Sacco, Project Manager, via petersacco@bedrockaustralia.com by the closing date.

2.4 Enquiries
Any enquiries regarding the Tender Conditions, Tender Documents or other aspects of the Tender should be directed to the designated Contact Person:

Name: Peter Sacco
Phone: 0456 521 991
E-mail: petersacco@bedrockaustralia.com
3 TENDER SCHEDULES

3.1 TENDER FORM

3.1.1 PART 1 – Tender Price (Excluding GST)

We, the undersigned, are willing to execute the Works in accordance with the Conditions of Contract, Specification and Drawings referred to therein for:

Cost of Work (Excluding GST):

(Amount in Words)

($

(Amount in Figures)

GST (10%):

(Amount in Words)

($

(Amount in Figures)

Quotation Sum (Incl. GST):

(Amount in Words)

($

(Amount in Figures)
3.2 **Schedule of quantities and prices**

Contractors are to submit a tender trade breakdown, listed below, showing a cost breakdown of elements totalled to equal the Contract Sum, all figures **excl GST**.
