This service provider workshop will provide the latest information on the financial and production performance of dairy farms in northern Victoria and across the state for 2014-15.

Speakers

Natalie Nelson, DEDJTR, Specialist Farm Business Economics, will present the results of the recently released 2014-15 Dairy Farm Monitor Project.

Neil Lane, Dairy Australia, Program Manager of Farm Business will demonstrate DairyBase and its application for advisers and farmers.

John Mulvany, OMJ Agricultural Consulting, will discuss farm business returns and making profitable business decisions this season.

Scott Birchall, Dairy Australia, Consultant Land, Water and Carbon – Murray Region, will discuss the greenhouse emissions component of Dairy Farm Monitor.
