Council is scheduled to consider the budget and public feedback on 28 June 2023

Mayor's Introduction

On behalf of Council, I am pleased to present the Draft Budget 2023-2024.

This is a budget of consolidation – it is targeted, considered, delivers on community priorities as outlined in the Council Plan 2021 - 2025 and ensures we are well placed to continue future investment in our communities.

Following the Black Summer fires and COVID 19 we undertook significant multiyear capital program and our 2023/24 capital program of \$27.8 million continues to support these commitments. Excitingly in 2023/24 we will see the completion of a number of significant capital projects across the Shire including:

- Corryong CBD upgrades
- Wises Creek Road upgrade in Talgarno
- Corryong Heavy Vehicle Bypass (upgrade) Project
- Corryong Skate Park
- Mitta Streetscape
- Playground for Bellbridge Early Years

In addition, we are investing \$1.4 million in our local road network across our Pavement Renewal, Re-sheeting and Major Patching programs.

Our forecast levels of cash/investments are expected to return to more historical levels across the next 3 years as we deliver the projects associated with bushfire recovery funding.

Our commitment to delivering *quality facilities and services* for our communities remains a focus with the delivery of early years services, libraries, swimming pools, waste facilities, recreational facilities and public amenities. We will also continue to provide for the safety, sustainability and liveability of our communities through our planning, building, environmental health, local laws and emergency management functions.

The Draft Budget proposes a rate increase of 3.5% for 2023/24, which is consistent with the cap set by the State government under the Fair Go Rates System. This increase will see our total income from rates increase by approx. \$245,000. In previous years we have obtained approval from the Essential Services Commission for a higher rate cap in acknowledgement of the challenges faced by small and rural councils. While the cost of living pressures being faced by so many of our communities was central to our considerations these same pressures also impact the underlying cost of providing our own services - we believe a rate increase of 3.5% is the right balance.

Analysis of our long term financial viability highlights that despite our current strong financial position, in the longer term we remain reliant on significant grant funding to deliver the services our communities expect. We continue to advocate strongly to the state and federal governments to not only ensure funding reflects the rising cost of services and materials but consideration be given to more sustainable funding models.

Mayor

Executive summary

The *Draft Budget 2023-2024* has been developed to support the ongoing delivery of the *Council Plan 2021-2025*. It seeks to balance the demands for services and infrastructure with the community's capacity to pay.

The *Draft Budget* has been developed within the context of a prudent long term financial framework. These projections help to identify whether we are financially sustainable in the medium to long term, while achieving our *Council Plan 2021-2025* objectives. While we have adequate funds to support these objectives in the near term, we continue to rely on one-off grants to be able to maintain and renew our community infrastructure. Our projections show that without more reliable longer term funding our cash balances will continue to drop and our financial sustainability remains at risk.

We support the underlying principles of the Victorian Government's rate capping framework, the Fair Go Rates System. Effective 1 July 2016, Councils are not permitted to raise the average rate above the cap set by the Minister, unless they can demonstrate to the Essential Services Commission (ESC) that an increase above the cap is justified and a higher rate cap is subsequently approved by the ESC.

In prior years we received approval for a higher rate cap of 5.55% and implemented successive rate increases in excess of the standard rate cap between 2017/18 and 2019/20. We were able to withhold the proposed increase for 2020/21 as a result of receiving bushfire recovery funding support. In 2021/22 we passed on a rate increase of 1.5% and in 2022/23 we passed on an increase of 1.75% in accordance with the standard state-wide rate cap. In 2023/24 we again propose to pass on a rate increase consistent with the rate cap of 3.50%. The challenge for us will be to maintain our services and infrastructure at the level that our communities should be able to expect when inflation is higher than the state government's rate cap.

In applying the 3.50% increase to our total rates pool, the draft budget includes small adjustments to the previous rates differentials to mitigate the impacts rural property values increasing at more than twice the rate of residential property value increases. Summary examples of the impacts of the proposed increases is included in page 41.

We have worked very hard to secure substantial grant funding to support a wide range of capital works for the benefit of our communities. The work to secure grants has included Councillors and Council officers advocating for the needs of our ratepayers and residents to be met, and many grant applications to both State and Federal Governments. We continue to lobby the State and Federal Governments for more reliable funding sources to support long term infrastructure renewal needs.

Council maintains a conservative stance regarding borrowing, and generally only borrows:

- a) where there is an identified recurrent revenue source, directly tied to the reason for borrowing, which will enable the debt to be repaid, or
- b) the reason for borrowing is to contribute to a multigenerational strategic project.

1. Rate increase

The average rate increase in 2023/24 is in line with the State Government's rate cap of 3.50% and Council has forecast the average rate increase to be in line with the rate cap. It should be noted that at this level of rate increase Council may not be financially sustainable into the longer term future given increasing infrastructure renewal needs across the Shire, without relying on one-off grant funding opportunities which may fluctuate and may not always match our communities' needs.

2. Total rates and charges

Total rates and charges include general rates, the municipal charge, the waste facilities management charge and kerbside collection charges. The rate cap is only applicable to the general rates and municipal charge and not applicable to the service charges of waste facilities management and kerbside collection, which are operated on a cost neutral basis over the long term.

Kerbside collection charges will increase by 25% given the increased cost of providing the new organics collection service, whilst the waste facilities management charge will remain the same as 2021/22.

3. Operating result

The operating result recognises all revenue received by Council (including capital grants) and all operating expenditure. The expected operating result for the 2023/24 year is a deficit of \$7.32 million. A key factor behind this anticipated result is the early receipt of approximately \$4.6 million (or 75%) of the 2023/24 Financial Assistance Grants in June 2023, as well as the receipt of substantial non-recurring grants in 2022/23.

Council only raises revenue to provide services and infrastructure and not to make a profit. Any surplus or deficit in the operating result should be considered in the context of the adjusted underlying result at item 4.

4. Adjusted underlying result

The adjusted underlying result excludes capital grants which are generally non-recurring. The 2023/24 result reflects an underlying deficit of \$8.49 million which is primarily due to receiving approximately \$4.6 million (or 75%) of the 2023/24 Financial Assistance Grants in advance in June 2023. The recurring underlying deficits projected into the years ahead reflects that a significant portion of Council's expenditure is funded by capital grants primarily relating to one-off projects. A substantial proportion of these projects relate to renewing Council's aging infrastructure.

5. Services

We deliver a broad range of services to our communities including libraries, maternal and child health, kindergartens, planning, kerbside waste collection and access to council assets such as roads, bridges and playgrounds. The net cost of delivering services is effectively the shortfall between the total cost of service delivery and any income received directly from government and users of services. This equates to the amount of expenditure that rates and charges revenue is required to fund.

The net cost of all services delivered to the community for the 2023/24 year is expected to be \$19.06 million which is a significant increase on prior years. This is partially due to the receipt of considerable bushfire recovery funding in 2020/21 and 2021/22, and also due to the receipt of approximately \$4.6 million (or 75%) of the 2023/24 Financial Assistance Grants in advance in June 2023.

6. Cash and investments

A = Actual F = Forecast B = Budget

Cash and investments are expected to decrease from \$46.26 million to \$17.58 million during 2023/24. We have had considerably high cash balances in recent years due to the inflow of bushfire response and recovery funding as well as significant one-off project grants. These cash levels are now projected to decline as funding is expended on next year's significant capital works program.

7. Capital works

A = Actual F = Forecast B = Budget

Capital works expenditure for the 2023/24 year is budgeted at \$27.78 million. The capital works program comprises of a number of significant projects as outlined later in the draft budget and include:

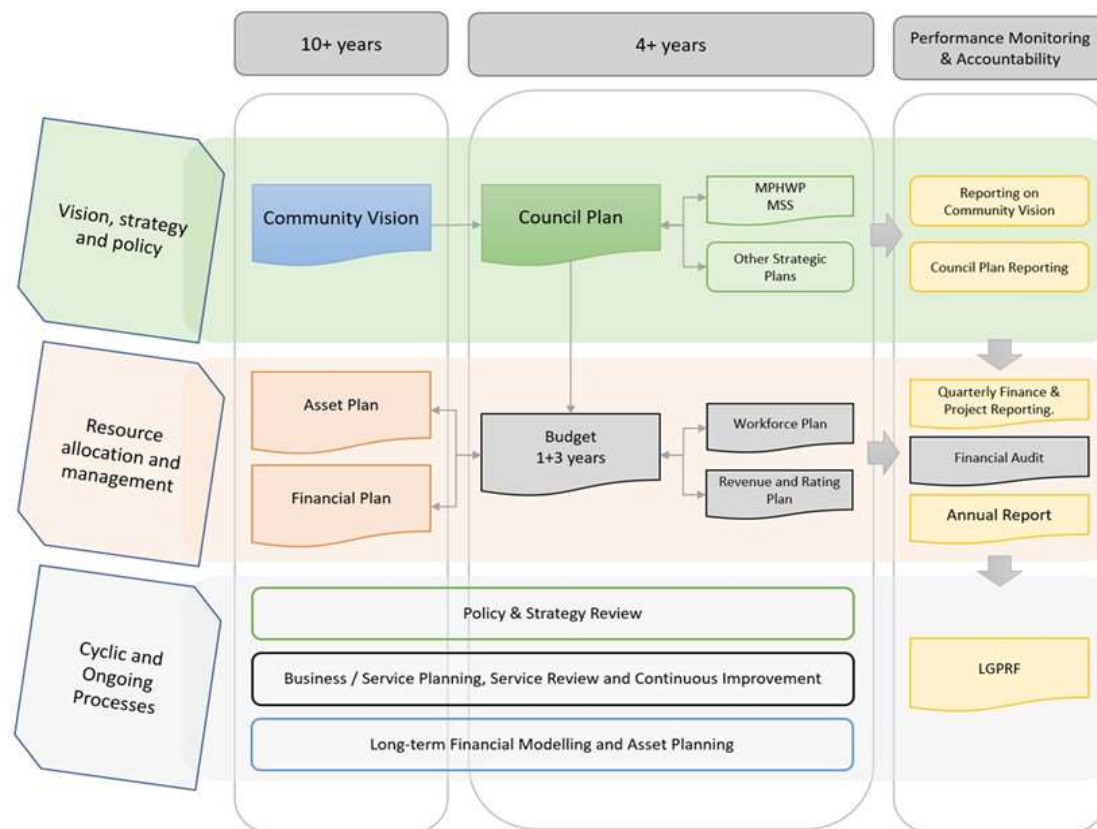

- continuation of Stage 2 of the Great River Road project to secure its status as a premier touring route;
- the Corryong CBD upgrade and Heavy Vehicle Bypass upgrade;
- the Dartmouth Splash Park and Pump Track; and
- continued development of our walking trails across Eskdale, Bellbridge, Walwa and Corryong.

1. Links to the Council Plan

This section describes how the Budget links to the achievement of the Community Vision and Council Plan within an overall integrated planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision and Financial Plan), medium term (Council Plan, Workforce Plan and Revenue and Rating Plan) and short term (Budget) and then holding itself accountable (Annual Report).

1.1 Legislative Planning and accountability framework

The Budget is a rolling four year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The diagram below depicts the integrated planning and accountability framework that applies to local government in Victoria. At each stage of the integrated planning and reporting framework there are opportunities for community and stakeholder input. This is important to ensure transparency and accountability to both residents and ratepayers.

Source: Department of Jobs, Precincts and Regions

In addition to the above, Council’s vision for its communities is captured in several long term master plans for townships, recreation reserves and public halls. These include but are not limited to *Tallangatta Tomorrow, Our Valley Our Future, Our Bellbridge and Upper Murray 2030 Vision Plan*; and the *Walwa, Corryong, Towong, Wyeeboo, Bethanga and Talgarno* recreation reserves and *Towong, Talgarno and Corryong Memorial* halls.

The timing of each component of the integrated planning and reporting framework is critical to the successful achievement of the planned outcomes.

Service level planning

Although councils have a legal obligation to provide some services— such as animal management, local roads, food safety and statutory planning—most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change.

Council reviews its services on an ongoing basis in consultation with the community to ensure that all services continue to provide value for money and the best mix of services is provided to align to community expectations and needs. Community consultation is undertaken in line with Council’s adopted Community Engagement Policy and Public Transparency Policy.

1.2 Our purpose

Community Vision 2031

Towong Shire will be the ideal place to be: welcoming, vibrant and diverse communities with quality facilities and services.

Our mission

To provide strong leadership and to work with our communities to enhance their social, economic and environmental wellbeing.

Our values

- **Respect** - We will listen and consider other perspectives and treat each other with courtesy
- **Integrity** - We will be honest with strong moral principles
- **Pride** - We will always take care in what we do
- **Teamwork** - We will help others to achieve by being positive, enthusiastic and confident

1.3 Strategic objectives

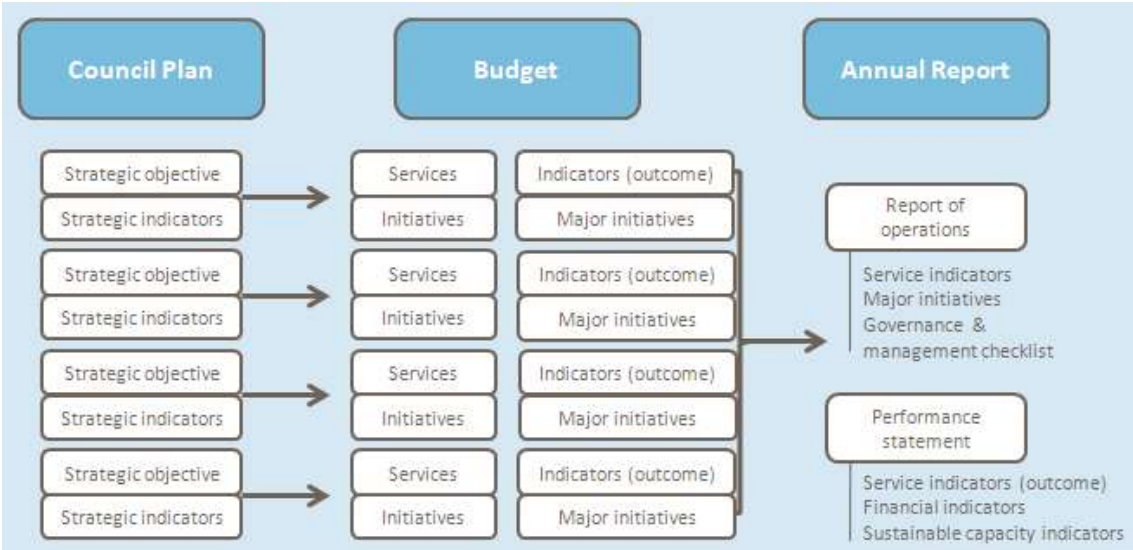

Council delivers services and initiatives contributing to the achievement of the six Strategic Objectives as set out in the *Council Plan 2021-2025*:

Strategic Objective	Description
1. Asset management	Maintain and improve our Shire's infrastructure to meet the levels of service established in consultation with our communities.
2. Community wellbeing	Encourage and support all people in our Shire to be happy, healthy, connected and resilient.
3. Economic and tourism development	Expand employment and economic opportunities across our Shire in a sustainable way.
4. Land-Use	Ensure that Council’s planning, building and environmental health services support all aspects of liveability and sustainable population growth.
5. Environmental sustainability	Integrate sustainable environmental management practices into all of our activities.

Strategic Objective	Description
6. Organisational Improvement	Maintain a high performing customer-centred organisation that works with the community to develop and deliver priorities.

2. Services and service performance indicators

This section provides a description of the services and initiatives to be funded in the Budget for the 2023/24 year and how these will contribute to achieving the strategic objectives outlined in the *Council Plan 2021-2025*. It also describes a number of major initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives and service performance outcome indicators in the Budget and report against them in their Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

Source: Department of Jobs, Precincts and Regions

In addition the following performance indicators are now mandated to be used by all Victorian Councils.

Service Measures	Financial Measures
<p><u>G2 Governance – Consultation and engagement</u> Satisfaction with community consultation and engagement (Community satisfaction rating out of 100 with the consultation and engagement efforts of council)</p>	<p><u>E2 – Financial efficiency – Expenditure</u> Expenses per property assessment (total expenses per property assessment).</p>
<p><u>SP2 Statutory planning – Service Standard</u> Planning applications decided within the relevant required time (percentage of planning application decisions made within the relevant required time)</p>	<p><u>S1 – Financial Stability – Rates Concentration</u> Rates compared to adjusted underlying revenue (rates revenue as a percentage of adjusted underlying revenue).</p>
<p><u>R2 – Roads – Condition</u> Sealed local roads below the intervention level (percentage of sealed local roads that are below the renewal intervention level set by Council and not requiring renewal).</p>	<p><u>L1 – Financial Liquidity – Working Capital</u> Current assets compared to current liabilities (current assets as a percentage of current liabilities).</p>
<p><u>WC5 – Waste management – waste diversion</u> Kerbside collection waste diverted from landfill (percentage of recyclables and green organics collected from kerbside bins that is diverted from landfill).</p>	<p><u>O5 – Financial obligations – Asset renewal</u> Asset renewal compared to depreciation (asset renewal and upgrade expenses as a percentage of depreciation).</p>

Community feedback is sought on the targets and this informs future programs to deliver improved performance as required.

2.1 Strategic Objective 1: Asset management

To achieve our Asset management objective, we will deliver key projects to support economic, tourism and social development in the Shire, and continue to develop services and facilities to support long term population growth. We will implement key safety improvements across our road and footpath networks. The services, initiatives and service performance indicators for each business area are described below.

Services

- 1.27 Deliver annual asset inspection and renewal programs per asset management and road management plan requirements
- 1.28 Implement the maintenance program for Council's buildings

2.2 Strategic Objective 2: Community wellbeing

To achieve our Community wellbeing objective, we will encourage active lifestyles and facilitate access to activities that have meaning to our community members. We will support our communities to be inclusive, warm and welcoming, and advocate for every person to have access to adequate housing, transport, education and care. We will support our communities to be more resilient and safe against future adverse events, and to understand and mitigate climate change risk. The services, initiatives and service performance indicators for each business area are described below.

Services

Service area	Description of services provided	Revenue Expenditure Surplus/(Deficit) \$'000
Community Services	This service provides family oriented support services including kindergartens, maternal and child health, immunisations and youth services. It also supports Council's commitment to improved access for all residents, delivers an annual Seniors event and support arts and culture throughout the Shire.	
Library Services	This service provides public library services at two locations and provides a customer focused service that caters for the cultural, educational and recreational needs of residents and provides a focal point for the community where they can meet, relax and enjoy the facilities and services offered.	
Swimming Pools	This service provides Council's two seasonally operated swimming pools at Corryong and Tallangatta. These pools operate from November to March each year. It also provides a financial contribution to the community operated Eskdale pool.

Key Council Plan Initiatives and Priorities

- 2.1 Undertake place-based master planning for the Peninsula including the investigation of options for early years and community facilities
- 2.2 Undertake place-based master planning for the Mitta Valley, Corryong and Tallangatta
- 2.3 Maintain a contemporary Municipal Health and Wellbeing Plan which reflects our community priorities
- 2.4 Support the development of recreational activities and infrastructure to encourage active lifestyles for all ages and stages
- 2.5 Review opportunities for communities to access library resources and connect through libraries
- 2.6 Develop a strategy for arts and cultural offerings across the Shire
- 2.7 Expand and improve early years services across the Shire to support young families
- 2.8 Renew the Youth Plan to embed the 'youth voice' in all aspects of service delivery
- 2.9 Advocate for the development of a variety of housing options to match community needs, particularly for older people
- 2.10 Encourage the establishment of innovative, sustainable transport solutions for remote communities
- 2.11 Support our communities to ensure that Shire places are welcoming to culturally and linguistically diverse (CALD) communities and inclusive and connected
- 2.12 Build relationships and develop understanding of aboriginal people and consider the commitment to an ongoing reconciliation action plan process
- 2.13 Participate in key networks to support communities and key stakeholders on solutions to address family violence, suicide and mental health
- 2.14 Support our communities to drive their recovery from bushfires and the COVID-19 pandemic and improve their mitigation of and resilience to future adverse events

Service Performance Indicators

Service	Indicator	Performance Measure	Computation
Maternal and Child Health (MCH)	Participation	Participation in the MCH service (Percentage of children enrolled who participate in the MCH service)	[Number of children who attend the MCH service at least once (in the year) / Number of children enrolled in the MCH service] x100
		Participation in MCH service by Aboriginal children (Percentage of Aboriginal children enrolled who participate in the MCH service)	[Number of Aboriginal children who attend the MCH service at least once (in the year) / Number of Aboriginal children enrolled in the MCH service] x100
Libraries	Participation	Active library members (Percentage of the municipal population that are active library members)	[Number of active library members / municipal population] x100
Aquatic Facilities	Utilisation	Utilisation of aquatic facilities (Number of visits to aquatic facilities per head of municipal population)	Number of visits to aquatic facilities / Municipal population

2.3 Strategic Objective 3: Economic and tourism development

To achieve our Economic and tourism development objective, we will strengthen the capacity of new and existing businesses to thrive, and expand tourism offerings, promotion and experiences across the Shire. We will support the agriculture to increase resilience and grow to meet future challenges, while supporting the diversification of the Shire's economy. We will advocate for improvements to critical infrastructure: mobile connectivity, internet and power. The services, initiatives and service performance indicators for each business area are described below.

Services

Economic Development	Economic activity	Change in number of businesses (Percentage change in the number of businesses with an ABN in the municipality)	[Number of businesses with an ABN in the municipality at the end of the financial year less the number of businesses at the start of the financial year / Number of businesses with an ABN in the municipality at the start of the financial year] x 100

2.4 Strategic Objective 4: Land-use planning

To achieve our Land-use planning objective, we will deliver integrated statutory services to support community wellbeing, population growth, economic development and the protection of the environment. We will maintain a contemporary planning scheme and support all users of Council's statutory services to have an excellent customer service experience. The services, initiatives and service performance indicators for each business area are described below.

Services

Service areas	Description of services provided	Revenue Expenditure Surplus/(Deficit) \$'000						
Planning	The planning service processes all planning applications, provides advice and makes decisions about development proposals which require a planning permit, as well as representing Council at the Victorian Civil and Administrative Tribunal where necessary. It administers the Towong Planning Scheme as well as preparing major policy documents shaping the future of the Shire. It also prepares amendments to the Towong Planning Scheme and carries out research on demographic, urban development, economic and social issues affecting Council.							
Building Services	This service provides statutory building services to the Council community including processing of building permits, fire safety inspections, audits of swimming pool barriers and investigations of complaints and illegal works.							
Environmental Health	This service protects the community's health and well-being by coordinating food safety support programs, Tobacco Act activities and smoke free dining and gaming venue issues. The service also works to rectify any public health concerns relating to unreasonable noise emissions, housing standards and pest controls.

Key Council Plan Initiatives and Priorities

- 4.1 Support the rebuild process for fire impacted properties
- 4.2 Establish a Developer Contributions Policy and a Minimum Social Infrastructure Requirements Policy
- 4.3 Develop structure plans for Corryong, Tallangatta and Bellbridge and incorporate into the planning scheme

- 4.4 Review the Residential Settlement Strategy
- 4.5 Support population growth outside of key townships through appropriate amendments to the planning scheme
- 4.6 Review the Rural Land Use Study
- 4.7 Review the Schedule to the Rural Activity Zone
- 4.8 Advocate for changes to the farming zone to allow for a second residence to enable succession planning
- 4.9 Seek funding to extend the Heritage Study
- 4.10 Update planning scheme overlays including:
 - 4.10a - Bushfire Management
 - 4.10b - Heritage
- 4.11 Review statutory service processes to ensure an excellent customer experience

2.6 Strategic Objective 6: Organisational Improvement

To achieve our Organisational improvement objective, we will engage with our communities to ensure that decision making is informed by community needs and promote Council activities that affect the community. We will advocate and collaborate with other agencies and stakeholders to progress priorities and activities, and strive to consistently deliver an excellent customer service. We will provide a great place to work that supports a high performing organisation and provide good governance while actively managing evolving risks. We will continually review revenue sources and cost saving opportunities while striving to provide best value. The services, initiatives and service performance indicators for each business area are described below.

Services

Service area	Description of services provided	Revenue Expenditure Surplus/(Deficit) \$'000
Councillors, Chief Executive and associated support	This area of governance includes the Mayor, Councillors, Chief Executive Officer and associated support which cannot be easily attributed to the direct service provision areas.	
Customer Service	This service provides Council with operational organisational support to Council, CEO and the Senior Management Group and acts as the main customer interface with the community. The service also assists with delivering on the communication and governance needs of the Council.	

Corporate Services	This service provides financial and corporate based services to internal and external customers, including the management of Council's finances, payment of salaries and wages to employees, human resources, procurement and contracting of services, raising and collection of rates and charges, managing Council's records and delivering on Council's occupational health and safety responsibilities. This service also maintains reliable and cost effective communications and computing systems, facilities and infrastructure to support Council staff.		
Total Organisational improvement	Revenue		2,250
	Expenditure		4,245
	Surplus/(Deficit)		(1,995)

Key Council Plan Initiatives and Priorities

Service Performance Indicators

Service	Indicator	Performance Measure	Computation
Governance	Satisfaction	Satisfaction with Council's consultation and engagement processes	Community rating out of 10 of satisfaction with Council's consultation and engagement processes.

2.7 Performance Statement

The service performance indicators detailed in the preceding pages will be reported on in the Performance Statement which is prepared at the end of the year as required by Section 98 of the *Local Government Act 2020* and included in the *Annual Report 2023/24*. The Performance Statement will also include reporting on prescribed indicators of financial performance and sustainable capacity, which are not included in this budget report. The prescribed performance indicators contained in the Performance Statement are audited each year by the Victorian Auditor General who issues an audit opinion on the Performance Statement. The initiatives detailed in the preceding pages will also be reported in the *Annual Report 2023/24* in the form of a statement of progress in the Report of Operations.

4 Notes to the financial statements

4.1 Comprehensive Income Statement

4.1.1 Rates and charges

In accordance with the *Local Government Act 2020* and the associated regulations, rates and charges are required to be disclosed in Council's *Budget*. The *Local Government Act 2020* additionally requires Council to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan over a four-year period.

In developing the *Budget 2023-2024*, rates and charges are identified as an important source of revenue. Planning for future rate increases has therefore been an important component of the financial planning process. The State Government's *Fair Go Rates System (FGRS)* sets out the maximum amount councils may increase rates in a year. For 2023/24 the FGRS cap has been set at 3.50%. The cap applies to both general rates and municipal charges and is calculated on the basis of Council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the community.

To achieve these objectives while maintaining service levels and a strong capital expenditure program, the average general rate and the municipal charge will increase by 3.50% in line with the rate cap. The kerbside collection charge will increase by 25% due to increases in waste transportation and processing costs and there will be no increase to the waste facilities management charge in 2023/24.

4.1.1(a) - The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	2022/23		2023/24		Change	%
	Forecast	Actual	Budget			
	\$'000	\$'000	\$'000	\$'000

4.1.1(l) - Any significant changes that may affect the estimated amounts to be raised by rates and charges.

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations
- The variation of returned levels of value (e.g. valuation appeals)
- Changes in use of land such that rateable land becomes non-rateable land and vice versa
- Changes in use of land such that it changes rating category.

4.1.1(m) Differential rates

The rate and amount of rates payable in relation to land in each category of differential are:

- A general rate of 0.2264% (0.2264 cents in the dollar of CIV) for all rateable residential properties
- A general rate of 0.2264% (0.2264 cents in the dollar of CIV) for all rateable rural residential properties
- A general rate of 0.1811% (0.1811 cents in the dollar of CIV) for all rateable rural properties
- A general rate of 0.2264% (0.2264 cents in the dollar of CIV) for all rateable business properties
- A general rate of 0.9702% (0.9702 cents in the dollar of CIV) for all rateable undeveloped residential properties.

Each differential rate will be determined by multiplying the Capital Improved Value of rateable land (categorised by the characteristics described below) by the relevant percentages indicated above.

Council considers that each differential rate will contribute to the equitable and efficient carrying out of council functions. Details of the objectives of each differential rate, the types of classes of land, which are subject to each differential rate and the uses of each differential rate, are set out below.

The objective of each differential rate is to ensure that all rateable land makes an equitable financial contribution to the cost of carrying out the functions of Council, including (but not limited to) the:

- Construction and maintenance of infrastructure assets
- Development and provision of health and community services
- Provision of general support services

The money raised by differential rates will be applied to the items of expenditure described in the Budget by Council. The level of the rate for each type of land is considered to provide for an

appropriate contribution to Council's budgeted expenditure, having regard to the characteristics of the land.

Residential land

Residential land is any land, which is:

- Less than 0.4 ha in size, and
- Not classified as rural, business or undeveloped residential.

Rural residential land

Rural residential land is any land, which is:

- From 0.4 ha to 40 ha in size, and
- Not classified as rural, business or undeveloped residential.

Rural land

Rural land is any land, which is:

- Greater than 40 ha in size.

Business land

Business land is any land, which is:

- Occupied for the principal purpose of carrying out the manufacture or production of, or trade in goods or services, or;
- Unoccupied but zoned commercial or industrial under the Towong Planning Scheme.

Undeveloped residential land

Undeveloped residential land is any land, which is:

- Within a residential, low density residential, mixed use or township zone, and
- Within a sewerage area, and
- Able to be developed as residential land within the planning scheme, and
- Land that has not been issued with an occupancy permit.

Other fees	132	93	- 39	-29.55%
Total user fees	1,323	1,252	- 71	-5.37%

User fees relate mainly to the recovery of service delivery costs through the charging of fees to users of Council's services. These include use of swimming pools and other community facilities and the provision of community services such as kindergarten and childcare services. In setting the budget, the key principle for determining the level of user charges has been to ensure that where possible, increases recover the costs of providing the service.

Operating grants include all monies received from State and Federal sources for the purposes of funding the delivery of Council's services to ratepayers.

Capital grants include all monies received from State and Federal sources for the purposes of funding the capital works program. Overall, the level of capital grants is projected to decrease by 85.65% due to the substantial funding for one-off projects received in 2022/23.

Contracts	1,777	2,893	1,116	62.79%
Total materials and services	8,202	9,322	1,120	13.66%

Materials and services include purchases of consumables, payments to contractors for the provision of services, non-recurrent operating projects and utility costs. Materials and services are forecast to increase by 13.66% compared to the forecast for 2022/23.

The main reasons for this increase include increases in maintenance costs and selected one-off grant funded operational projects.

4.1.9 Depreciation and amortisation

	Forecast Actual	Budget	Change

Infrastructure	3,211	3,372	161	5.01%
Total depreciation	4,884	5,075	191	3.91%

Depreciation is an accounting measure which attempts to allocate the value of an asset over its useful life for Council's property, plant and equipment including infrastructure assets such as roads and drains.

4.1.10 Other expenses

	Forecast Actual	Budget	Change	
	2022/23	2023/24	\$'000	%

<i>Councillor allowances</i>	189	201	12	6.35%
Total other expenses	240	236 -	4	-1.67%

Other expenses relate to a range of unclassified items including contributions to community groups or projects, Councillor allowances, auditors remuneration and other miscellaneous expenditure items. Councillor allowances are projected to increase by 5.97% in line with the legislated ruling that governs these, being the Determination of the Independent Remuneration Tribunal.

4.2 Balance Sheet

4.2.1 Current assets and non-current assets

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less. These balances are projected to decrease during the year as funding received for one-off projects is spent.

Trade and other receivables are monies owed to Council by ratepayers and others. Short term debtors are not expected to change significantly in the budget.

Other assets include items such as prepayments for expenses that Council has paid in advance of service delivery, inventories or stocks held for sale or consumption in Council's services and other revenues due to be received in the next 12 months.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all assets such as land, buildings, roads, vehicles and equipment which has been built up by Council over many years. The increase in this balance is attributable to the net result of the capital works program and depreciation of assets.

4.2.2 Current Liabilities and Non-Current Liabilities

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are budgeted to increase compared to 2022/23 levels due to increased employee provisions for increased budgeted staffing positions.

Provisions include accrued long service leave, annual leave and rostered days off owing to employees and rehabilitation costs for landfill sites.

4.2.3 Equity

Total equity always equals net assets and is made up of the following components:

- The asset revaluation reserve which represents the difference between the previously recorded value of assets and their current valuations;
- The accumulated surplus which is the value of all net assets less Reserves that have accumulated over time. The decrease in accumulated surplus results directly from the budgeted operating deficit for the year.

Balance sheet - Key assumptions

In preparing the Balance Sheet for the year ending 30 June 2024 it was necessary to make a number of assumptions about assets, liabilities and equity balances. The key assumptions are as follows:

- A total of 94% of total rates and charges raised will be collected in the 2022/23 year.
- Trade creditors are based on total capital and operating expenditure less written down value of assets sold, depreciation and employee costs. The payment cycle is 45 days.

Borrowings

The table below shows information on borrowings specifically required by the Regulations.

4.3 Statement of Cash Flows

The Statement of Cash Flows is based on three main categories of cash flows:

4.3.1 Operating activities - Refers to the cash generated or used in the normal service delivery functions of Council. This includes rates and charges, statutory and user fees, grants income and payments to employees and suppliers.

Cash remaining after paying for the provision of services to the community may be available for investment in capital works (investing activities), or repayment of debt (financing activities).

4.3.2 Investing activities - Refers to cash generated or used in the enhancement or creation of infrastructure and other assets. These activities also include the acquisition and sale of other assets such as property, infrastructure, plant and equipment.

4.3.3 Financing activities - Refers to cash generated or used in the financing of Council functions and include borrowings from financial institutions and advancing of repayable loans to other organisations. These activities also include repayment of the principal component of loan repayments for the year as well as finance lease payments. Council undertook a finance lease in 2017/18 for a new garbage truck and this was subsequently paid out in 2022/23.

4.3.4 Cash and cash equivalents at end of the year

Overall, total cash and investments are forecast to decrease as at 30 June 2024 as funds are expended on the 2023/24 capital works program.

4.4 Capital works program

This section presents a listing of the capital works projects that will be undertaken for the 2023/24 year, classified by asset expenditure type and funding source.

Notes to indicators

1 Adjusted underlying result – An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Continued losses mean reliance on Council reserves until they are exhausted.

2 Working Capital – The proportion of current liabilities represented by current assets. This is forecast to decline to unsustainable levels due to their being insufficient financial resources to support requirements.

3 Debt compared to rates - The trend indicates Council's reducing reliance on debt through redemption of debt.

4 Asset renewal - This percentage indicates the extent of Council's renewal of assets against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets.

5 Rates concentration - Reflects extent of reliance on rate revenues to fund all of Council's ongoing services. The trend indicates Council will become more reliant on rate revenue compared to all other revenue sources.
